LATA POURS FROM COLLIMA VOL-  
cano—Five Hundred Re-  
ported Dead.

(BY DIRECT WIRE TO THE TIMES.)  
MEXICO CITY, June 9.—  
[Exclusive Dispatch.] Ar-  
rivals from the State of Colima  
say that 500 persons were  
killed in Zapotlan and that  
Gusman is a heap of ruins.

Lava is flowing steadily and  
hot sand ash showers are  
smothering the country for  
miles about the volcano. Rail-  
roads and telegraph lines to  
Manzanillo have been rendered  
useless. Floods of lava ob-  
struct the tunnels.

extradition to Ohio will be fought  
and habeas corpus proceedings may  
be employed to free his client.

MOTHER WITH HIM.  
St. Clair's mother, Dr. Maybelle  
Griswold; his half brother, J. P. Fran-  
cis, a brother Charles L. Herr, men-  
tioned in the dispatches from Colum-  
bus, are in this city, associated with  
him in the theater business.

Upon his arrival here two months  
ago St. Clair said he was from Santa  
Rosa. He bought the Empire theater for  
\$1000, paying \$1000 cash and \$75  
monthly. He later insured the property  
for \$4000 with local agents.

Before becoming delirious tonight  
St. Clair stoutly maintained his in-  
nocence, charging that his arrest re-  
sulted from his refusal to enter a  
bribery compact with a fire marshal  
who asked him to give \$200 that a  
charge of arson be pressed. St.  
Clair said he cares little for his per-  
sonal humiliation, but that his wife  
and his four babies and his two sis-  
ters in this city are sufferers for  
whom his heart aches.

HERR FIGURED IN EAST  
UNDER MANY NAMES.

SUN-STRICKEN EAST BAKES IN  
MERCILESS DAY OF TORRIDITY.

Intense Heat Melts Thermostats in Chicago Store,  
Turning on Automatic Fire Sprinklers Throughout  
Building—Crops Shriveling, Prostrations Many, and  
Two Deaths Reported to Police.

(BY DIRECT WIRE TO THE TIMES.)  
CHICAGO, June 9.—[Exclusive  
Dispatch.] The entire Middle  
West is baking under the mer-  
ciless heat that has continued for  
several days. Chicago, which has been  
coolest of reason of the lake breeze,  
was scorched today when the tem-  
perature rose to 95-100 deg., the hot-  
test June day in thirty years.

Tonight the police report two deaths  
and scores of prostrations. The heat  
was so intense that thermostats in one  
big department store melted, turning  
on the automatic sprinkling appar-  
atus over the big structure.

(ASSOCIATED PRESS NIGHT REPORT.)  
ALBUQUERQUE (N. M.) June 9.—  
Engineer A. W. Green was killed and  
twenty trainmen and passen-  
gers were injured this morning at 10  
o'clock when the west-bound Santa Fe  
California limited dived into a light  
engine near Santo Domingo, N. M.,  
thirty miles north of Albuquerque.

The dead:  
A. W. GREEN, Las Vegas, engineer  
of light engine.  
The injured:  
Arthur Robinson, colored, dining-  
car waiter, Chicago; condition serious.  
Ray F. Flower, fireman of limited,  
Las Vegas, badly scalded; may die.  
W. C. Shiller, dining-car conductor,  
Chicago; internal injury, seriously  
hurt.

George Sealover, Las Vegas, en-  
gineer of limited; badly bruised.  
C. O. Clark, conductor of limited,  
Albuquerque, internal injuries.  
Anton Sirose, Chicago, dining-car  
cook; burned.

E. J. Frankie, Chicago, dining-car  
cook; back and arm injured.  
Ed Geary, Chicago, Pullman car  
porter; wrist and back injured.  
Ray B. Hall, mail clerk, Albuquer-  
que; ribs broken, not serious.

Miss Margery Pratt, Kearney, Neb.,  
niece of Mrs. Tomlinson; bruised about  
body.  
E. C. Chulister, Webster, S. D.; cut.  
A. W. McCourt, Stanford, Cal.; head  
and hip bruised.

Martin Luther, Stanford, Cal.; head  
bruised.

Life a Dream.

(BY DIRECT WIRE TO THE TIMES.)  
CHICAGO, June 9.—[Exclusive Dispatch.] Grace Bryan Hargrave, youngest daughter of William Jennings Bryan, June bride of Richard Lewis Hargrave of Lincoln, Neb., here on her honeymoon, says she is the happiest woman in the world—and she looks it. Handsome young Hargrave is devoted to her. After much coaxing, they today talked with reporters about their plans.

WHAT SHE'LL DO.  
Get up every morning at 6 o'clock and prepare breakfast for her husband.

Pass the rest of the morning with light household duties, allowing the maid to wash the dishes, read, maybe for an hour or so, and serve lunch with her father, William Jennings Bryan.

Drive, then a brief little nap. Have her maid prepare dinner for the Bryan family and the newly-wed Hargraves at Fairview.

Dress for dinner, every single evening; then welcome her husband home; then chat during the dinner hour; go to friends after dinner, go to theaters. Pick up her husband's friends.

Avoid heckling and quarreling and turn a deaf ear to suffragists. And she is going to always be the happiest woman in the world.

WHAT HE'LL DO.  
Will be the grocery man for his father-in-law just because he is going to live with him and he happens to own a big wholesale grocery house.

Refrain from the use of tobacco, and especially cigarettes—not drink or swear, but live up to boyhood's ideals.

Not go into politics—not yet at least—but devote his time to business. See that his wife has all the comforts his income affords.

Shun the clubs, the golf links and his old-time college sports, and spend his spare moments with his wife.

Build a home of his own, planned by his wife and furnished to suit her taste.

Always be the kind, loving, generous husband that he proved he could be as a college sweetheart.

Silly Thing to Do.  
**J. EADS HOWE**  
**IS A QUITTER.**

**DUCKS JOB JUST BECAUSE HE GOT NO PAY.**

Says He's Going to Lead a Lot of  
Tramps to Washington to Ask for  
More Pay for Less Work and Free  
Transportation to Places of Em-  
ployment.

(BY DIRECT WIRE TO THE TIMES.)  
CINCINNATI, June 9.—[Exclusive Dispatch.] James Eads Howe of St. Louis, who is known all over the country as the "millionaire tramp," has quit his job in a Cincinnati restaurant because he had to have money to get a bed. For the past three days he has been washing in the restaurant.

It so happened that anybody working for these people must work one week before he is paid. There were three for these three days. Howe has been sleeping in the public parks of Cincinnati. Today he gave up. He said he must have a bed. He has accordingly given his pay, \$3 for three days' work, and tonight he sleeps in one of the best 15-cent rooming-houses of Cincinnati.

"We are going to have more than 20,000 tramps in line when we travel to Washington this summer to ask the passage of bills making it easier to get work in this country," said Howe tonight. "But these will not all be regular jobs. There will be at least 10,000 unemployed men in our party."

"We want four laws and are going to fight for them. One is to shorten the hour of the workman; another is a minimum wage scale; another is the establishment of national employment bureaus; and still another is for free transportation to the job at the expense of the employer."

**OGDEN GOELET A GRANDPA.**  
Wife of His Son Becomes a Mother, and Congratulations Come From Duke and Duchess.

(BY DIRECT WIRE TO THE TIMES.)  
NEWPORT (R. I.), June 9.—[Exclusive Dispatch.] Mrs. Robert Ogden Goelet, who was Miss Elsie Wheten, one of the noted Wheten triplets of Philadelphia, last night became the mother of a son, the first grandchild of Mrs. Ogden Goelet.

Mr. Goelet met and courted Miss Wheten here. They are occupying Stoneacre, the E. R. Stone villa, on Bellevue avenue.

Mrs. Goelet will probably resume her social activities during the season.

Among many congratulations received by the happy parents, who married in 1914, was from the Duke and Duchess of Roxburghe. The Duchess is a sister of Mrs. Goelet.

**PLANNED WHOLESALE MURDER.**  
Indiana Man Slightly Wounded His Wife and Daughter and Cut His Throat With Razor.

(BY DIRECT WIRE TO THE TIMES.)  
MUNCIE (Ind.), June 9.—[Exclusive Dispatch.] William Kuhn attempted to kill his wife and daughter and then commit suicide in the home of his father-in-law, near Cambridge, N. J., after a quarrel.

He fired two shots, one at his wife which grazed her arm, and another at Mrs. Nola Weaver, his daughter, which produced a flesh wound on a finger.

Kuhn did not wait to learn the results of his two shots, but rushed from the house to an outbuilding and cut his throat with a razor, but did not sever the jugular. He came near bleeding to death before being removed in an ambulance to the jail here.

See Visions of Bliss in Wedded Life.

Grace Bryan Hargrave.

Youngest daughter of William Jennings Bryan, who, with her husband, yesterday outlined her plans for happy married life to come.

## HEAPING HONOR ON AMERICANS.

MANY COURTESIES SHOWN TO  
JOHN HAYS HAMMOND.

Long List of Dinners and Special Functions Planned on His Behalf. Special Train to be at Envoy's Disposal for Review of British Fleet at Spithead June 24.

(BY DIRECT WIRE TO THE TIMES.)  
Following the Reids' dinner to-night in their honor, Mr. and Mrs. John Hays Hammond left for Paris, where they will stay until the 18th.

When Mr. Hammond officially becomes the special American Ambassador to attend the coronation, he will then take up his residence at the Burdette-Coutts' house in Stratton street.

During his official existence here, Mr. Hammond will be the recipient of many special courtesies at the hands of the government and court officials. Long lists of dinners, receptions and other functions have been planned for him.

The plainest indication of the King's desire to please Americans by attention to their envoy is shown by the provision by the admiralty of a special train for the conveyance of Mr. and Mrs. Hammond and family from London to Portsmouth on the occasion of the review of the British fleet by the King at Spithead on June 2. The Hammonds' train will draw up to the water's edge to a specially detailed vessel which will convey the party to the review. High officials of the navy will welcome Mr. Hammond aboard ship.

Practically all the members of the permanent embassy will be members of Mr. Hammond's party, which also will include J. P. Morgan and other distinguished Americans.

**SCHOOL ELECTION IMPENDS.**  
New Union High School District Formed by Ontario and Upland Must Have Officials.

ONTARIO, June 9.—The election of school trustees for the new Union High School district is called for Tuesday, June 20. The call was issued by County Superintendent of Schools A. S. McPherson and the notices were posted today by E. H. Joliffe, clerk of the Ontario Board of Education.

There are to be two polling places. Ontario people will vote at the Central Grammar School, G street and Campus avenue, and Uplanders at the Upland Grammar School.

As yet nothing has been done toward calling a caucus to nominate candidates for the new board, but it is probable that there will be a mass meeting of the voters of this city and Upland to select candidates.

The names of J. C. Mills, R. B. Campbell and C. C. Graber for the Ontario members, and Ed. Harwood and H. C. Kennedy for the Upland members of the board have been suggested and seem to meet with general favor.

About the first step which seems likely to follow the election of trustees is a bond election to purchase the present high school property from the Ontario school district.

The money thus realized by the local district from this sale will be put into a new building for the South Side School, similar to the one recently built for the San Antonio-avenue school.

**FAMILY PERSISTENTLY BAD.**  
Mother and Sons Give the Officers of Riverside County Considerable Trouble.

RIVERSIDE, June 9.—August Jure, who recently completed serving seventy days in the County Jail and also paid \$210 of a fine of \$300 for keeping a place in the town of Beaumont where gambling was allowed, again appeared in Justice Webb's court yesterday, charged with having assaulted one J. A. Rayburn, who was acting in the capacity of detective in Jure's place of business at Beaumont when the latter was assaulted.

Jure entered a plea of guilty as charged and was sentenced to sixty days' imprisonment, but upon his making a promise to the District Attorney that he would close out his pool hall in Beaumont and shake the dust of this county from his feet immediately, the sentence was suspended.

Jure and his mother and another brother have given the officers of San Bernardino and Riverside counties considerable trouble by their persistence in running bootlegging or gamb-  
ling joints. The mother has done time in the first named county and the sons have been mixed up in a number of unwholesome affairs.

There is considerable interest here in the damage case brought in San Francisco against P. A. Miller of the Glenwood Inn, by the French maid, Adele Verga, who shot Frederick Kohl, who was a guest of the inn, in the case, in that city yesterday.

In the damage suit brought by the French maid to recover \$30,000 for alleged false arrest and imprisonment when she was tried here two years ago on an insanity charge brought by Miller, and Kohl, her employer, who was a guest of the inn, the case was dismissed as to Defendant Kohl, and the jury in the case disagreed as to the trial against Miller.

After the report of the jury the woman hauled off Kohl, one of the wealthiest men of San Francisco, and shot him in the stomach, perhaps fatally wounding him.

Mr. Miller was expected home yesterday, but stayed longer to see what the wound is going to make of him. Attorney Purinton today received a telegram from Mr. Miller stating that he will be home tomorrow morning and upon his arrival the decision of Judge Denmore in the eight-hour case will be rendered in open court.

**SEEKS FURS IN ALASKA WILDS.**  
San Jacinto Man Will Go From Seattle to Nome in Search of Ermine. School Board Engages Teachers.

SAN JACINTO, June 9.—A. V. De-  
drick, a well-known citizen of the Pass, has gone to Alaska for furs. He will go from Seattle to Nome, thence by dog sleds to various points in Alaska, and will cross to Adair, Siberia, in search of ermine. The dogs will average sixty miles a day, and the territory is now as well supplied with provision stores that it is unnecessary to carry much food on the sleds.

The School Board has engaged teachers for next year as follows: H. P. Bester of Yale, principal; Miss Harriet Thompson of Riverside, Miss John of Pasadena, Miss Emma of Los Angeles, Miss Lydia Mc-Turman of Odd Fellows Lodge officers for the ensuing term as Carl Sweeters, Noble Grand; John Forquer, Vice-Grand; Earl Sevier, Secretary; John Moore, Treasurer. The Hebeah Lodge elected Mrs. Imogene Fontenot, Noble Grand; H. M. Prouty, Vice-Grand; Mrs. Mary Tripp, Secretary; and W. H. Prouty, Treasurer.

The Christian Endeavor has elected officers as follows: President, Charles Gagnaw; Vice-President, Ed. Butts; Secretary, Goldie Ed; Treasurer, Curtis Black; Organist, Mabel Gilman.

Miss Ruth Kalar has gone to San Francisco to accept a position in the forest service of the national government.

E. S. Tripp has sold his home and fifteen acres of orchard here to G. W. Grubbs of South Carolina, who became infatuated with Southern California while on a visit here and is coming back to live.

Thomas Fountain has sold his dairy ranch to A. Hardwick, a new resident.

**MANUFACTURING DISTRICT.**  
Porterville Business Men Ask Trustees to Set Aside a Section for Factory Sites.

PORTERVILLE, June 9.—Officials of the Merchants' Association and of the Chamber of Commerce have requested the Trustees to take immediate steps to establish a section of the town, adjoining the Southern Pacific Railroad reservation, and also along the line of the P. N. E. Railroad, as a manufacturing district.

This action is taken in view of the fact that two large manufacturing concerns are contemplating the establishment of branch factories in this city, and this reservation is established as requested would simplify securing the proper equipment for them.

One of the P. N. E. Road a considerable acreage just within the city limits to the southeast, which they are to use as a manufacturing district and in which they have already made offers of sites at a nominal price to concerns looking for locations and the manufacturing district should include this territory.

**DAIRY INSPECTION.**  
Dr. Keane, the State Veterinarian, will co-operate with the local deputy county livestock inspectors in a searching examination of all dairy herds in the Pomona-Woodville-Porterville dairy districts, for the purpose of locating and exterminating all animals which are afflicted with tuberculosis.

In many respects the milk which is produced in this district is the superior of anything in this state, as is

HAS NO SUBSTITUTE

shown by the fact that the Porterville butter is always sold on the Los Angeles market at from one to four cents above current price, by reason of its uniform excellence. This is due in a degree to the sanitary condition of the district and creameries. It is now the purpose to raise the general standard of health of the animals in use to the same high point as is maintained in other respects.

If the plans are carried out, it will give this section the most nearly ideal dairies and creameries of any place in the entire United States.

Members of the Board of Supervisors have appropriated the sum of \$10,000 for the work, and the first of the examinations will be made within the week. It is understood that the dairymen have promised their hearty co-operation in the work.

**PLAN FREEDOM PICNIC.**  
Residents of San Jacinto Arrange for Celebration of the Fourth of July With Various Attractions.

SAN JACINTO, June 9.—At a meeting of representative citizens and business men, Wednesday evening it was decided that San Jacinto will celebrate the Fourth of July this year. The special feature of the day will be an old-time "Missouri picnic." An auto parade, baseball game, horse racing and other sports will occupy the day which will close with a ball. G. B. Hannah, George Grover and P. A. Dreding composed the committee appointed to arrange for the celebration.

Work has progressed so far with the new bank building that the officers of the institution are confident that they will be doing business in the new quarters by the first of the month.

Mr. and Mrs. J. M. Keen, who recently sold Keen Camp, in the San Jacinto Mountains, have purchased the Beck improved town property at Valle Vista and expect to make that place their future home. Mrs. Catherine Beck and daughter, Miss Elsie Beck, will remove to Los Angeles.

There is a big demand for labor in San Jacinto at present. The harvest just coming on require a large amount of extra help while the unusual activity in building work keeps all skilled labor employed. The street improvement in progress keeps many men busy. Several miles of cement sidewalk will be constructed the course of the summer. The lumbering interests in the San Jacinto mountains are sending a force of men employed at the mill and they will be employed in hauling the lumber to the cars at San Jacinto and loading it for shipment at the rate of a carload a day. Altogether this promises to be one of the busiest seasons in years in the San Jacinto Valley.

**REDONDO BEACH.**  
REMONDO BEACH, June 9.—The remains of Christine Eker, who committed suicide at Hermosa Beach Tuesday morning, will be buried tomorrow morning at 11 o'clock in Inglewood Park Cemetery, by Undertaker George Cate. The adopted sister, who had written to inquire about the dead woman did not reply to Cate's telegram, and she will be buried with the money which she left in the bank for J. C. Butcher.

Edith May, the little 2-weeks-old daughter of Mr. and Mrs. Edward Gerdtrud, died this morning. The funeral will be held tomorrow afternoon at 3 o'clock in Inglewood Park Cemetery.

**Hemet's Sewer Plant.**  
HEMET, June 9.—At a mass meeting of the citizens of the district, held in Ferguson Hall Thursday night, the installation of a sewer system was discussed.

Engineer Lathrop of Los Angeles, in charge of the proposed system, presented data bearing on the subject. The proposition as first heuried by the Board of Trustees of Hemet at a recent meeting, is the issuing of bonds to the amount of \$14,000 for the installation of a sewer system and the purchase of a farm to be run in conjunction. The election will be held July 5 to decide the proposition.

**SANTA MONICA.**  
SANTA MONICA, June 9.—L. M. Pence yesterday received a cablegram from Honolulu announcing the accidental death of his nephew, Frank Clarke. The victim of the accident was aged about 23 years and was well known here and at Redondo, where as an electrical construction engineer he was employed during the building of the big Pacific power plant. At the time of the accident he was engaged on an extensive contract in Honolulu. No details of the accident are known here beyond the fact that he died in an automobile collision.

## Great Sale Ends To-N

Administrator's Sale of Splendid MacFarland Stock of Men's Furnishings  
Positively Ends Tonight at 10 o'clock

## A Tremendous Bargain Center

Your Last Opportunity to Share in the Stupendous Values This Sale Affords. Come Early, Prepared to Buy Liberally.

After consulting with the heirs of the late Don H. MacFarland, the administrator of the estate, the best interests of all concerned will be served by closing out the stock of men's furnishings at West Fourth street, at store-closing time tonight. Every thought of profit has been abandoned. The entire purpose of this definite clearance is to realize money on the stock and turn it over to the heirs as are entitled to it by law.

## The Greatest Men's Furnishings Sale History of Los Angeles Ends Tonight at 10 o'clock

Every item of the late Don H. MacFarland's splendid stock of Men's Furnishings will be sold at a price that is a real bargain. We enumerate below some of the rare values which will be sold as long as the stock holds out.

Don H. MacFarland was for many years the leading haberdasher of Los Angeles. His reputation for carrying none but the highest grade goods brought to his store the very best dressed men of the community. The Administrator feels that in offering these goods at such extraordinary prices he is giving you an opportunity to buy first-class merchandise at prices usually obtained for inferior goods. Note these reductions:

25c BOSTON GARTERS.....12½c  
ODD LOT OF ARROW COLLARS.....5c  
ODD LOT OF E. & W. COLLARS.....10c  
ARROW BRAND CUFFS, PAIR.....10c  
25c BLACK AND TAN HOSE.....12½c  
50c LISLE HOSE.....25c  
12½c HANDKERCHIEFS, 4 FOR.....25c  
PURE LINEN HANDKERCHIEFS.....12½c

50c Silk Hose.....40c  
50c Silk Neckwear.....25c

\$1.50 Silk Ties.....65c  
\$4.00 Straw Hats.....\$1.75  
\$6.00 French Fur Hats.....\$1.45  
50c Suspenders.....25c  
75c Guyot Style Suspenders.....35c  
\$1.40 Athletic Underwear.....45c

The Administrator also desires to announce that the fixtures now at this store, such as glass cases, desks, safe, cash register, desk, etc., etc.

The Administrator announces that the entire stock will be sold at prices as low as the items last. Outfits are specially invited to participate in this sale.

Every man who wants first-class men's furnishings at a price which is a real bargain, at cost and profit, should be here tonight. Please remember that this is a store-closing sale, and that the entire stock of this estate, including the splendid Don H. MacFarland stock, will be sold at a price that is a real bargain.

(Signed)  
JAMES H. BUTLER,  
Administrator.

NEWS REPORTS FROM CORRESPONDENTS OF THE TIMES.

## Pasadena. POLITICAL PLAN IS NOW UNCOVERED.

Mayor Wants the Votes of  
the Ladies.

Writes to the Papers and  
Makes it Plain.

Park Plans Are in Somewhat  
Muddled State.

(Office of The Times, 35 S. Raymond avenue.)

PASADENA, June 10.—Many people have referred to Pasadena as a quiet old town, others have referred to it as "Sleepy Hollow," but fishermen state spawning beds are always still water and there is an old adage which says "still waters run deep." In that it may, Pasadena has been the incubator of many deep-laid schemes, has been the point of beginning for many movements which have become world wide, and "neither many of her quiet nooks many great enterprises have been thought out.

Pasadena lays claim to being the nest where the woman's suffrage movement, which is now raging over the State of California, was hatched, and Pasadena suffragettes are now engaged in exerting themselves to make a State-wide reputation by rolling up the largest vote in the State in favor of proposed Constitutional Amendment No. 8.

For thirty years Pasadena has been warring with the water question. At times that important question has reached tempestuous stages, in fact, the atmosphere has become cyclonic and the atmosphere would calm down.

A year ago the directors of the Board of Trade took a notion that they could settle the matter, and proceeded to appoint a Committee of Twenty-five with plenary powers. For a year that committee has been plodding along until it has now reached what one of the prominent members of that committee stated yesterday, the "sleepy stage," the same stage reached by all committees heretofore appointed.

The object in appointing the committee was to formulate some method whereby the city could acquire the properties of the water companies. Three times Pasadena has held a bond election to secure money for the purchase price, and three times it failed because of insufficient votes. Now votes are the only thing necessary to carry any bond election.

Here is another "tail to the kite." In Pasadena there are thousands of people, who would dearly love to see their beautiful city hooked up with the great Owens River aqueduct. They state they are waiting for the day when they will have a chance to vote for such a proposition. They say they know it is the only real and lasting way of a settlement of the water question. These people are not stockholders in the private water companies. They have remained quiet, while the stockholders, and those directly interested in selling the water plants to the city have been exceedingly noisy in their protestations against Owens River water.

To get the present water companies it will require votes; to get Owens River water it will require votes; to pass Constitutional Amendment No. 8 it will require votes. What a happy thought it would be to exchange votes—has been done before and will, probably, be done again.

The suffragettes will do anything possible to get votes and so will those who want an adequate water supply for the city. The women state they want plenty of pure mountain water. Owens River has that kind of water. What woman is there who would not want her home supplied with pure, soft, snow water? The Owens River water advocates know this and so do the women. It is the women are not so particular about antiquated vested interests and, if they get a chance to vote, which they probably will, they will vote for Owens River water, especially when it is shown to them that it can be secured more cheaply and expeditiously.

The Water Committee held a meeting last night, behind closed doors as usual, but it is stated on good authority that there is absolutely no intention of trying to bring the matter to a focus until after next October.

Mayor Thum, president and secretary of the committee, who wrote a two-column article to a local paper a few days ago advocating equal suffrage in no unmeaning terms, presided. It is said he spared for time saying that he would not vote in the election until after next October, at which time he expected the women will be enfranchised. He would hardly dare say it because there are some members of the committee who are demanding that the city buy the present private plants. It is stated positively that had Mayor Thum said that he believed the women would prefer Owens River water the committee would have died forthwith.

Ex-Mayor Farley is also in an ardent mood for the women's suffrage. There are said to be a whole lot of them in the city. Of course none of them "know a thing about it," Mayor Thum knows, and maybe they don't. "Who knows?"

FOR GREATER ARROYO PARK.  
At a special meeting of the City Council yesterday afternoon it was decided to go ahead with the greater Arroyo park plans, although for the present, the smaller proposition will not be abandoned. Speeches were made by E. H. Lockwood, C. D. Daggett and W. L. Wotkins, all of whom advocated the acquiring of the entire tract of ground between Arroyo drive and the western city limits, which runs along the western edge of the Arroyo Seco, from West Colorado street, a point just north of the Reservoir dam, to Columbia street, on the south, excluding Busch's Gardens, which will be connected, in a manner, with the park. Mayor Thum and Councilmen Davies, Fogg, Chaffee and Rhodes all stated their preference in favor of the larger park, an extension of the assessment district east as far as possible, Los Robles avenue and south of Colorado street.

The only ordinance of intention adopted during the last days of the Farley administration which proposed to condemn only the bank

of the Arroyo Seco instead of the entire arroyo, bank and all. Many protests were filed against the assessment district, and not against the improvement, which, according to City Attorney Carr, allows the city to proceed to reject the protests and proceed with the condemnation proceedings, unless it should be decided to adopt the larger park idea, in which case the smaller park proceedings will be dropped in favor of the larger. The Councilmen are loathe to drop the one until the other is fully secured, consequently the former proceedings will not be dropped now, but if it can be shown that the larger park idea can be put through, without protest to the improvement, then they will be dropped. The matter will come up again at next Tuesday's meeting of the Council.

EXHIBITS MERITORIOUS.  
All yesterday afternoon and until late last night great crowds thronged the various school buildings of the city and viewed the school work which has been done during the past year. Proud pupils and fond mothers accompanied the little ones and each school was the scene of happiness and joy. It was no difficult task to tell where each child's exhibitions were located. "Papa, here, is mine," "mama, I did this," was heard on every hand, and each announcement was promptly followed by a perfectly proper and pardonable display of pride. In each school, last night, there were literary and musical exercises. Last year all the exhibits were held in some downtown rooming house. It was not a success. This year's experiment proved most successful. The individual exhibits were larger and better, and the exhibits were held in a place where the parents of getting acquainted with the parents. On the whole the work of the school year has been highly commendable, and Pasadenaans are justly proud of their schools.

NEWS NOTES.  
Twenty-five members of the Pasadena Clearinghouse Association attended the annual banquet at the Hotel Maryland, last night.

The police have issued a notice to all property owners to "keep their eyes" on all strangers who examine plumbing. It is alleged that some men are visiting houses and looking them over carefully. Some people have questioned his motives.

It is believed that a well-organized gang of bicycle thieves is making headquarters in this city. Within the past day or two, it is said, many bicycles have been stolen in broad daylight. No clues have been found.

Wadsworth sells paints.  
Hotel Vista del Arroyo. New annex and lunglows, open while building new hotel.

WOULD HAVE CITY BEAUTIFUL.

South Pasadena Citizens Ask for an Ordinance That Will Compel Owners to Keep Clean Streets.  
SOUTH PASADENA, June 9.—Several of the prominent taxpayers of the city have requested the members of the City Council to pass an ordinance compelling owners of vacant lots to keep them clear of weeds and brush, which are not only detrimental to the beauty of the city, but cause the fire risk to be much greater, as many of the fires during the summer time are caused by the burning of dried grass started by a bonfire.

It is planned to have the owners of the lots notified to clear them, and if they do not, the city will do the work, the cost being charged up to the property owner. It is probable that the ordinance will be passed at the next meeting of the City Trustees.

NEWS BRIEFS.  
The members of the Ladies' Aid Society of the Methodist Church, and their friends to the number of eighty-five, held a picnic yesterday afternoon at Sycamore Grove. This will be the last meeting of the society until next September.

The Women held their annual frolic in Herlihy Hall on Mission street last evening. A high-class vaudeville show was given, with colored artists and negro melodians, also a band. The entertainment was a pleasing number, with numerous other acts on the bill, which was highly enjoyable.

Miss Emma Sperling, while endeavoring to turn off a water faucet from the porch of her home, No. 1146 Diamond avenue, recently, sustaining injuries to her back, which will require a couple of weeks. Losing her balance, she fell, fracturing her collar bone, and severely spraining her wrist.

Frank A. Catterton, John E. Dublin and E. E. Thompson, members of the South Pasadena Board of Education, have sent to each of the registered voters of the city, a letter asking that they participate in a "straw vote" on the question of whether it is advisable to take \$5000 needed for kindergarten extension out of the \$5000 building fund in the county treasury, drawing no interest, or by levying a special tax next fall. Kindergarten will be established in the Marengo-Lincoln Park and El Centro schools, to be ready for the opening of the semester in September. The Lincoln Park school will be financed at a cost of \$2000, and two bungalows adjacent to the other two school buildings will be equipped for kindergarten work. It is within the budget of the board to take this \$5000 from the building fund balance and go ahead with the work. This is, perhaps, the logical way, but the board wishes to have an expression from the people. The \$5000 building fund was raised for "erecting and equipping the Marengo-Lincoln school and for purchasing an additional school site." If the majority of the voters express themselves in favor of taking this \$5000 out of the building fund, there will be no question raised afterwards regarding the proper use of this fund.

CHARGES WORTHLESS CHECK.

Complaint Issued Here Against Oil Promoter With Office in Bakersfield.  
A complaint was issued Wednesday by Deputy District Attorney Blair against George Sparr, an oil promoter with an office in Bakersfield, charging him with passing a check upon the M. Gunst Company for \$10 without having sufficient funds in the bank to cover it.

The paper was issued upon the Merchants National Bank. Upon inquiry, it was learned that Sparr never had an account there. It is believed by attaches of the District Attorney's office that he has passed similar checks in Bakersfield, but through some reason unknown, was never prosecuted.

The check was passed upon the Gunst Company several days ago in payment for \$2 worth of cigars. The complaint was sworn to by Henry O. Reid, local manager of the Gunst concern, with an office at No. 209 West Fifth street.

## Long Beach. AN OLD SOLDIER WAS SURPRISED.

OFFICERS DISMISS ONE CHARGE  
AND FILE ANOTHER.

Is Alleged to Have Offered Two  
Patrolmen Five Dollars Each if  
They Would Release Him When  
Arrested on a Burglary Charge.  
Plan for Beach Improvement.

LONG BEACH, June 9.—James Brissey, an old soldier, was surprised today at his preliminary hearing on a charge of burglary to have the charge suddenly dismissed and another substituted, that of offering a bribe to an officer, and, upon the evidence submitted, was bound over to the Superior Court in the sum of \$500.

Brissey was arrested last Sunday in connection with the theft of wearing apparel and jewelry from the apartments of Mrs. Jean Vanderburg. Some of the plunder was discovered in his room, and after he had been taken in custody, he is alleged to have offered Detectives 100 four into the ocean and Brown \$5 each if they would let him go and drop the case. It is probable that but for this Brissey would have been released, as the evidence against him in the burglary case was weak.

BEACH IMPROVEMENT.

At a meeting of the beach board last night, R. H. Young submitted a plan for the permanent improvement of the beach from Seaside Park to Devil's Gate, and the ultimate widening of the beach accretions. The beach board appointed a committee to investigate the project.

Briefly, Mr. Young proposes to build another concrete walk south of the present walk of a thousand lights and in a line with the thirty-foot walk on the west beach, now being started. The walk will continue east under the auditorium by means of an arcade, spaces on each side to be taken up by concessions. Along this walk, which will be nearly five miles in length, will be erected, at intervals, short jetties extending 100 feet into the ocean at low tide, thus preventing cross-currents from washing away the beach, and at the same time, build the beach wider by the natural action of the waves.

In all, twenty-two jetties are contemplated. Mr. Young figures that the cost of the project will be \$100,000 for the work, and, after that, be a good source of revenue both to the city and to private owners of beach property.

NEW WING.

The school board this morning authorized the construction of a north wing to the Eleventh-street school, at a cost of \$10,000, which will be joined to the existing building by a new wing. The board also elected V. G. Nichols of Los Angeles assistant in the woodworking department of the Polytechnic, and Miss Josephine Barclay, cooking and cafeteria assistant of the High School. R. E. Mudgett and Mrs. M. P. Nugent were elected janitors of the new building. G. R. Stevenson and Alonzo Leachman were reappointed. Other janitors were reappointed.

NEWS BRIEFS.  
Seward A. Simmons of South Pasadena will be the principal speaker at the Elk's Flag Day exercises at the auditorium next Tuesday. J. H. Ardis of Downey will give the tribute to the flag.

The local bankers yesterday met and renewed their invitation to the California Bankers' Association to hold their 1912 convention in Long Beach. It is desired to have the convention meet at Hotel Virginia, and delegates will be entertained with auto and boat rides and a grand ball.

The graduation exercises of the High School will be held on June 16, at the Clarendon church. Judge Neely of Pomona will deliver the address. Class day exercises will be held on the 16th at the new High School grounds.

of the city issued today show combined resources of \$3,912,877.62; available cash of \$746,544.70; and deposits of \$2,166,332.92. Increases over the reports of twelve months ago.

Mart G. Long, assistant to the late wharfinger, Charles Baettge, was appointed to the position this morning by the Board of Public Works. Frank Walchell was appointed his assistant temporarily.

Miss Ruth Smith, elected to a position in the public schools, has notified the board that she has accepted a position at Covina, and will not be available for the local position.

Henry Britton of a local rooming-house reported today that a roomer, D. C. Prophet, has not been seen since Wednesday, and, as he is a poor health, Britton is afraid harm has befallen him.

FIRECRACKER DAY PROGRAMME

Pomona Is Fairly Bursting With  
Patriotic Ardor and Plans a Celebration of Superior Merit.  
POMONA, June 9.—The committee in charge of the forthcoming local celebration of Independence Day are working diligently for the success of the demonstration and are planning to raise \$1500 for the affair by getting a large number of subscriptions for small amounts, thus making the general public partners in the undertaking. With this in view, the city has been divided into districts which are being canvassed by a score of solicitors.

It is the intention to make this the most general celebration yet held here. There will be a patriotic programme at Ganesha Park, following a parade of decorated automobiles and floats, and planologues by Miss Peck and several other patriotic societies. There will also be a parade of decorated automobiles and floats, and planologues by Miss Peck and several other patriotic societies. There will also be a parade of decorated automobiles and floats, and planologues by Miss Peck and several other patriotic societies.

NEWS BRIEFS.

A splendid concert was given at the Fraternal Aid Theater this evening by the members of the Lyric Club, assisted by Gage Christopher of Los Angeles, director of the club; Miss Helen Quinlan, Bonnie Barrow, Gladys Rodda and Myrtle Whalen. Substitute, or eligible: Kate Boyer, Jane Brown, May Ely, Bertha Meise, Genevieve Hughes, Willie Kendrick, Ethel Perkins, Genevieve Perkins and Florence Sunderland. Nathan Shutt resigned to go to Lindsay. Other resignations accepted were those of Pauline Leach, Myrtle Scott and Mabel Adams.

FOREST FIRE CAUSES ALARM.

Entire Ranger Force Was Summoned to Fight Flames in the Vicinity of Riscon.

MONROVIA, June 9.—The first forest fire of the season in Angeles reserve was the cause of an emergency summons of the entire ranger force yesterday. The alarm was sent in from Camp Lincoln. Neither the origin nor extent of the fire is ascertainable, but it is believed to cover a wide sweep of country. It started near the remote headquarters of the San Gabriel, where the mountains merge into the desert plateau. So far no information has been received as to which way the conflagration is headed, whether toward the sage lands of the desert or the timbered lands of the range.

THE DISTANCE from the frontier to the fire zone is about fifty miles, by trail, a great part of which is difficult and doubly so at present because of damage wrought by winter storms. The men who left the foothills yesterday to battle with the flames could scarcely have arrived before noon today. Forest Guards Roy Shupard and Carl Glenney and Ranger Jahow answered the call from here, but no word has been received from them.

Assistant Forest Supervisor E. B. Long received word of the fire while returning from arduous duty at Sunland and without returning home for rest or sleep, struck across the range from Pasadena.

At Supervisor Charlton's office no further details concerning the fire, its spread and scope, had been received at noon today, but a message is hourly expected from Riscon. Shipment of the first pool of Valencia by the exchange is in progress and will amount to about eighty carloads, approximately half of the late fruit under exchange control. It was estimated that only 25 per cent. of the crop would be forwarded in June but for a variety of reasons. Growers seem desirous of completing the long season. Fruit is of very fine quality, but runs to small sizes. The ground, however, is nearly 25 per cent. greater than estimated about six months ago.

THE GRADUATION exercises of the Clarendon Grammar school were held this morning. A clever playlet entitled "The Bravest Boy at Bunker Hill" was presented in the courtyard in front of the school house. Songs and drills were also given during the exercises. The graduates were as follows: Susie Case, Nova Clevenger, Grace Hamilton, Martha Kim, Frances King, Hazel Metzger, Catherine Rich, Louise Richards, Edna Rogers, Amy Broveland, Gladys Troy, Musette Wire, Wortha Merritt, Martha Cowan, Ruth Adams, Evelyn Lorber and Alton Blaisdell. Rev. Genter, Young Kang, Lewis Loveland, Howard Parsons, Chong Song, Roy Such, Stewart Wheeler, Frank Parke, Perry Clarke and Weston Henzie.

The graduation exercises of the High School will be held on June 16, at the Clarendon church. Judge Neely of Pomona will deliver the address. Class day exercises will be held on the 16th at the new High School grounds.

Reports of the four national banks.

## Ocean Park. UNIQUE CRUSADE BY WOMAN'S CLUB.

TO DIRECT CAMPAIGN AGAINST  
"DELUSIONS" OF SIN.

Carping Criticism by Alien Voices  
and Pans Causes the Feminine  
Body to Align Itself With the  
Preachers to Put a Stop to the  
Nonsense—School Election.

OCEAN PARK, June 9.—A campaign directed against the "delusions of sin" is to be inaugurated by the members of the Crescent Bay Women's Club.

It was the many incidents which are attracting adverse notice and criticism of the beach resorts by neighboring cities that caused the members of the club to take the initiative at a conference held yesterday evening between the club officers and the local ministry.

The decision was to wage a determined warfare, and a meeting of those interested has been called for June 15.

CORNER'S VERDICT.

The Coroner's jury found this afternoon that Wyatt J. Weed, who was electrocuted here yesterday, was a former resident of Bangor, Me., and that he died "from being electrocuted in some way by an electric light wire which, with a weak heart, caused death."

NEW SCHOOL BOARD.

The special school election held today in the newly-created Ocean Park Playa del Rey Union High School district resulted in the election of G. H. Nettleton, D. Brannberger, M. Hunt, V. T. Reuter and A. Lewis as members of the Board of Education.

SANTA MONICA TEACHERS.

The Board of Education has employed the old force of teachers for the new year, with these additions: Mabel Quinn, Bonnie Barrow, Gladys Rodda and Myrtle Whalen. Substitute, or eligible: Kate Boyer, Jane Brown, May Ely, Bertha Meise, Genevieve Hughes, Willie Kendrick, Ethel Perkins, Genevieve Perkins and Florence Sunderland. Nathan Shutt resigned to go to Lindsay. Other resignations accepted were those of Pauline Leach, Myrtle Scott and Mabel Adams.

**Under those**  
ear-you-well  
are made right, to  
feel right, to wear right  
to all this.  
wearing hose that your  
her—and for the baby, too.  
your new Wunderhose for  
months' time. Wunderhose

**Wunderhose**  
Undermuslins 1/3 Under Value  
Sample Garments of the Better Sorts  
Every woman has a right to expect exceptional values at these  
June Sales. We buy these samples at a much lower  
than the same direct from the factory would cost us,  
and we will afford to make the special prices we do. To be  
there are, as a rule, not a great number of garments  
any alike, and some of them show the effects of handling  
or less, but those slight objections are abundantly made  
by the lowered prices. Come today while assortments are  
satisfying.  
Corset Covers at 35c; 75c Corset Covers at 50c; \$1.25  
Gowns at 55c; \$1.75 Night Gowns at \$1.25; \$1.75 Com-  
binations at \$1.25; \$2.25 Combinations at \$1.50; \$1.50 Petticoats  
at 55c; \$2.50 Petticoats at \$1.50. And so the values go  
throughout this big lot.

**Wunderhose**  
Linen Collars—Values to 50c at 5c  
Assortment of stiff linen collars including:  
Plain white linen collars;  
White ones embroidered in colors;  
Pattern collars of various kinds, and a lot of other de-  
luxe styles. Duplicates of many in this lot sold at high  
prices. Choice 5c.

**Wunderhose**  
3 Pairs "Onyx" Hose \$1.00  
Do you know "Onyx" stockings, the stockings that  
made the name "Onyx" famous. The mission of this an-  
nouncement is to convince you that "Onyx" hose at popular  
prices are worthy your critical judgment. For instance:  
FINE GAUZE LISLES, garter tops, spliced heel, toe and  
black, white, tan.  
MEDIUM WEIGHT LISLES with high spliced heel,  
toe and sole, deep garter tops. Tan and black.  
SILK LISLES of medium weight with spliced heel, toe  
and sole. Black only.  
ALL 3 PAIRS FOR \$1.00, AND WE HAVE OTHERS.

**Wunderhose**  
Women's Merode Union Suits 75c  
These famous Merode brand knit-wear in all the vari-  
ous styles and fabrics, but this Union Suit at seventy-  
five cents is in fit, comfort, wear and general satisfac-  
tion at the price we have ever known.  
The Union Suit of reasonable weight and is shown  
in style, excepting the lace trimmed knee.  
Children's 25c Vests and Pants 15c  
We offer today a line of boys' and girls'  
Vests and Pants in weights suitable for summer  
wear at our half price. Regular 25c garments at 15c.

**Wunderhose**  
Want an Instrument for Fun  
—Some for Real Study  
Many begin the serious study of music after the schools  
are over for the summer. Others want to take up some  
instrument merely for amusement. Either way, you'll  
find the best assortment of instruments here.  
Violins, for instance—we make a specialty of this in-  
strument—have special makes, models and sizes.  
Experts here who know and can demonstrate Viola  
tones, and will gladly do so for you.  
Start right—the proper instrument and your study  
will be made easier.  
Do you know that a carefully selected Violin Bow  
is very important?  
Saxophones, Guitars, Banjos, Ukuleles, Martin, Wash-  
burn, Stewart and Birrell Company Special makes—  
these are some that we particularly recommend.  
Organ—We make special care in buying Strings,  
and keep them carefully. Fresh stock always—no old  
dried out Strings. This means excellent wear and  
superior tonal results.

**YOUNG KEATING'S  
MORALS ATTACKED.**  
Wife Accuses Heir of Great  
Estate of Wickedness.  
Attorneys Apply for Leave  
to File New Charges.  
Name of Co-Respondent  
Kept Profoundly Secret.

That Edward Keating, youngest  
son of the family whose name he  
bears, has been faithful to his mar-  
riage vows since she began proceed-  
ings against him for divorce is the  
declaration of Mrs. Hazel M. Keat-  
ing in an application to file additional  
pleadings.  
Her attorneys yesterday applied to  
Judge Monroe for leave to file a  
supplemental complaint alleging the  
new ground, which is said to have  
arisen less than three months ago.  
The judge will pass upon the matter  
Monday.  
According to statements made at  
the courthouse yesterday, Mrs. Keat-  
ing is supposed to have herself dis-  
covered the incriminating evidence  
against her young spouse.  
Keating is one of the heirs to a  
vast estate which has been tied up in  
much litigation for several years, and  
is now in the hands of the Title Guar-  
antee and Trust Company. He reached  
his majority only recently.  
In Mrs. Keating's original com-  
plaint, she charged him with extreme  
cruelty. His conduct is alleged to  
have affected her both mentally and  
physically.  
She alleges that he was very jeal-  
ous of her and that he made her life  
miserable by his treatment. She  
charges that he had an elaborate sys-  
tem of espionage upon her move-  
ments.  
Many specific instances are related.  
He is said to have accused her of de-  
siring to go to certain places to see  
men she knew were going to be  
there.  
Another time he is alleged to have  
sneered at her because of the dress  
she used in attending herself to go out  
to dinner. She fled to her room and  
he is said to have followed her and  
kicked the door in when she locked  
him out.  
She declares that she was made ill  
by his insinuations when he found  
that she had received \$100 though she  
explained that her mother had given  
it to her.  
Mrs. Keating accuses him of little  
physical violence but on one occa-  
sion says that he threw her against  
the door of their automobile and hurt  
her.  
She avers that he was continually  
morose and cross and that he made  
her life very unhappy.  
That a woman will be dragged into  
the case as a co-respondent is certain  
if Judge Monroe grants permission to  
supplement the grounds for the ac-  
tion. Her name at this time is being  
kept profoundly secret.  
Keating will not be able to get  
much of the estate which is due him  
until the divorce action is finished.  
He is now hampered by a restraining  
order from the court to the effect that  
this Title Guarantee and Trust Com-  
pany must not pay him more than  
\$20,000. He is under an order of  
court to give his wife \$100 monthly  
for her support and to pay her attor-  
ney's fees.

Mrs. Hazel M. Wilson Keating,  
wife of Edward Keating, the youngest heir to the great Keating estate and  
the defendant in divorce proceedings instituted by Mrs. Keating.  
Through her attorneys she asked yesterday to be allowed to file supple-  
mentary grounds of a sensational nature, understood to have come to  
light very recently.

**SAYS LITTLE WIFE HOVE BRICKS,  
DISHES AND POTATOES AT HIM.**

EDWIN F. THOMPSON, a heating  
engineer, who weighs about 200  
pounds and looks the part, ap-  
peared before Judge Ellison in extra  
session No. 2 yesterday and asked for  
a divorce from his wife on the  
grounds of extreme bodily cruelty.  
He declared that she weighed only  
125 pounds, but that she more than  
made up for her deficiency in this  
respect by her anger.  
The couple were married in Octo-  
ber, 1908. Their difficulties began a  
short time after the ceremony. He  
declared that she attacked him in a  
local hotel and tore his face in such  
manner that the scars remained on  
his cheek for three months.  
Thompson told the court that his  
wife became enraged at him as they  
were walking through the Third-  
street tunnel. He said she slapped  
him, knocking off his hat. As he  
reached into the gutter to pick it up,  
he alleges that she kicked him. He  
asserts that she then hit him with a  
brick bat.  
In order to keep him home from  
a banquet, she is accused of having  
pretended to burn up his dress  
clothes. He took them to his moth-  
er's house. When she found what he  
had done they were sitting at the  
dinner table and she is said to have  
bombarded him with hot potatoes.  
Mrs. Thompson is also alleged to  
have broken more than half of a 102-  
piece dinner set, which he gave her  
for a birthday present, by throwing  
the dishes at him.  
It seemed so strange to the judge  
that a small woman could make life  
so miserable for such a large man  
that he took the case under consid-  
eration.

**PIPES TO CLOSE  
LAST OF GAPS.**

BIDS RECEIVED YESTERDAY FOR  
BIG SIPHONS.  
Steel Tubes and Rivets to Fill Out  
the Stretch of Miles Which the  
Aqueduct Will Span Will Cost Ap-  
proximately Not Far from Half-Mil-  
lion Dollars.

The beginning of the end in aqueduct construction is at hand. Bids received yesterday by the Board of Public Works for steel pipe for five canyons in the Saguas division of the aqueduct emphasized the commencement of final work on the big ditch, for the pipe is to be used for siphons—the last connecting links of the water-way from the Sierras.  
More than a dozen bids, accompanied by a fortune in certified checks and bonds, were opened. They were all referred to the aqueduct department for computation as to which is the lowest and best bid, for the freight charges have yet to be added. All the bids were for the various places of manufacture.  
The lowest bid apparently is about \$450,000 gross for the pipe and rivets, three-eighths of an inch thick. It will be laid from one mountain side to the other, following the drop of the sides and the level of the valley and will convey the water from one height to the other by gravity. It is because of this that the plan is called siphoning.  
The largest siphon of the five on which bids were opened is to be in Soledad Canyon. It is approximately a mile long and has a drop of 230 feet to the valley below. When in position it will weigh approximately 2,150,000 pounds. The others are a half-mile, one or less. They are in Dead Man's Canyon, Placita Canyon, Quigley Canyon and a draw which has no name.  
This is what is called the big open work of the connections between mountains, though there are many other points where the points of connection are farther apart. But in most of these where the rock will permit the open work is to be avoided by the construction of tunnels to the level of the valley where the water will be carried across in either steel or concrete pipes. In the Saguas division the rock is not of a character to permit this treatment and hence the entire distance must be without cover.

**JAPANESE KILLS HIMSELF.**

To Escape Enemy Who He Believed  
Was on His Track Commits Suicide  
by Hanging.  
While under the delusion that he  
was being pursued by an enemy from  
his native land, S. Nogami, a Japanese  
employed at gardening near the  
Pigeon Farm, committed suicide yester-  
day morning by hanging. His  
body was found dangling at the end  
of a rope which he had tied to the  
rafters of his shack.  
Nogami came here several days ago  
from Salt Lake and immediately ac-  
quired a position as gardener. He told  
his new acquaintances frequently of  
an avenger that had followed him all  
over the country so kill him, adding  
that he had endeavored to satisfy the  
demands of the man, but without suc-  
cess. Believing that it would be bet-  
ter to die than to be hounded, he had  
been for months past, Nogami de-  
termined to commit suicide.  
Nogami left a letter to be sent to  
his people in Japan, but failed to ad-  
dress it. The letter mentioned the  
name of a friend, T. Sato, of Otis,  
Cal. Coroner Harrell will endeavor to  
get into communication with Sato, be-  
fore giving order that the body be in-  
terred.

**Part II—The City and Its Environs.**  
**BUY STOCK TO  
OBTAIN POSITION.**

**Quarryman Charges Pasadena Man With Fraud.**  
**Pays Part Cash and Gives Notes for Balance.**  
**Becomes Suspicious After Shown Alleged Quarry.**

A felony complaint was issued yesterday by Deputy District Attorney Hammon against Drew Haven Dunn, a resident of Pasadena, with offices in the Higgins building, charging him with obtaining \$2500 from H. L. Thornton under false pretenses. The complaint was filed in Township Justice Summerfield's court. The officers are searching for Dunn.  
The deal in which Thornton alleges that he was swindled by Dunn involved \$12,000, but to date only \$1500 has been paid. The balance was to be forthcoming in the form of two notes, not later than July, but Thornton instituted an investigation a few weeks after he paid the first note, the result of which induced him to place the matter in Hammon's hands.  
Thornton says he bought 7500 shares of Pacific Consolidated Marble Company's stock from Dunn several weeks ago. The stock was reputed to be bona fide, and the company was supposed to own valuable marble deposits in Inyo county, said to be the most valuable in the West, which Thornton claims is absolutely untrue.  
SHOWS HIM QUARRY.  
Thornton further alleges that Dunn informed him that the Pacific Consolidated Marble Company was the parent organization of the Inyo Consolidated Marble Company and the Inyo Marble Company. Dunn, he says, took him to the quarry, the latter concern in Inyo county, and acquainted him with the property.  
See this great slab of black-blue marble yonder," Dunn is said to have stated to Thornton, while at the works. That's ours. So is that derick yonder. It alone cost over \$25,000.  
The attorney's description of the details of the works, according to Thornton, completely disarmed him. He adds in the complaint that when he returned to Los Angeles he bought the shares offered by Dunn for \$12,000.  
Thornton is a practical quarryman, having worked at the business all his life. He is a resident of Indiana, and came to Los Angeles through Dunn, who previously had induced an advertisement in an eastern paper.  
He was met here by Dunn, who informed him that he wanted a man to act as superintendent of the quarry and works of the Inyo Marble Company, which company had been absorbed by the Pacific Consolidated Marble Company.

**HOW IT WAS WORKED.**  
Thornton, it is said, informed Dunn that he would take the position, but did not want to buy any stock in the concern. Dunn stated that this was absolutely necessary, as the superintendent who formerly held the position was careless and unsatisfactory. Dunn held that if Thornton would take an interest in the company, he could have the job.  
According to Thornton, he paid \$2500 to Dunn several weeks ago in his office in the Higgins building. Second and Main streets. There were no witnesses. Thornton was then given stock vouchers, showing that he owned a certain number of shares in the Pacific Consolidated Marble Company.  
Later Thornton became suspicious and found, he says, that the Inyo Marble Company was originally the property of H. L. Dunn, the late California millionaire, and at present it is a part of the Mills estate.

**BIDS FOR DOLLAR BLOOM.**  
Score of Debutantes Will Serve As Ushers at the Sale of New Orpheum Seats for Charity Benefit.  
Systematic work is being carried on by President Frank and his committee among the clubmen, lodge members and others interested in the success of the Associated Charities auction of seats for the opening performance of the new Orpheum to the end that the attendance at Wednesday morning's auction at the old Spring-street Orpheum shall be generous.

**SHOWS PARDON FOR OLD CRIME.**  
VETERAN'S SIMPLE CONFESSION CAUSES STIR IN COURT.  
Asked During Trial of Man Who Robbed Him if He Had Been Convicted of Felony, He Tells How He Killed Man Who Tormented His Aged Father.

A dramatic scene of a man righting for his reputation ensued yesterday in Judge Willis' Court when John W. Meek, a Civil War Veteran, was asked if he had ever been convicted of a felony. He admitted that he had, but exhibited the pardon of the Governor of Arkansas, issued a short time after he was sent to prison.  
The story he told harked back to the days of the rebellion and of hot blood aroused by the abuse of Meek's parents an account of his choice of sides in the conflict.  
The scene in court was staged in the trial of Chris Conley on a charge of having stolen \$1 from the person of Meek. When it came to his cross-examination the embarrassing question was put, Meek answered it bravely in the affirmative. He was then permitted to offer an explanation.  
He said that he fought in the Confederate army. When he returned to his little home town in Arkansas he learned that several bullies had made life miserable for his aged father. His fighting blood was aroused and he shot and killed one of the tormentors.  
He was tried on a charge of murder and a jury found that he was warranted in taking life.  
"I left the State," he said, "Fourteen years later a new prosecutor went into office. To make a reputation he had me brought back. I was tried and found guilty of manslaughter. They sentenced me to five years in the penitentiary. I appealed to the Governor and he pardoned me. Here is the pardon," and with a look almost of triumph Meek pulled a well-worn document from his pocket.

**MYSTERIOUS SKELETON.**  
Linenman Stumbles on Bones Not Yet Identified—May Be Remains of a Lost Cowboy.  
A skeleton lying face downward in the sand was found by a linenman of the Southern California Edison Company yesterday near Castaic Station on the Southern Pacific. The bones had been picked clean by birds and nothing was noted that might lead to identification.  
The skeleton was turned over to Justice of the Peace Powell of Hawthall by Corner Hartwell. Powell will endeavor to establish its identification. It is believed that the skeleton is that of a cow-puncher, who became lost on the plains and, being without food or water, succumbed. From the condition of the bones, it is believed that they had been lying for months where they were found.

**SPEDER FINED.**  
J. G. Young was fined \$10 yesterday by Justice Summerfield for speeding on the El Monte road. He was arrested by Officers Dorsey and Anderson.

**EMBRYO BANDIT NABBED.**  
Thirteen-Year-Old Boy Equipped Himself to Be Bad Man, But Journey Interrupted at Station.  
A boy, scarcely larger than the gun which was introduced in evidence against him, was taken before Judge Wilbur yesterday on a charge of being an embryo bandit. He did not deny the accusation.  
The youngster was Charles Hawkes, 13 years old. He was intercepted by a policeman while on the way to El Paso, so he said, to become a "bad man."  
He is the son of Mrs. Jennie Hawkes of No. 627 West Seventh street. On May 29 he left home riding his pony and followed by his dog. He deserted his steed near the Arcadia Station and was taken up by the officer while he was preparing to board a train.  
The equipment with which he was loaded down included two pistols, a cartridge belt, forty-seven cartridges, a holster, a watch, a bunch of keys, two stick pins, two watch chains, cuff links, one earring, one old comb, two pocketbooks, five finger rings, two collar buttons, a knife, a screw driver and a military ornament.  
Judge Wilbur took the boy's case under advisement until Monday. Meanwhile the youngster is confined in the Detention House.

**COMMENCEMENT EXERCISES.**  
The closing exercises of the Los Angeles Academy and Maryland School will begin with a vesper service in the First United Presbyterian Church, at 4 o'clock Sunday afternoon; music recital, No. 109 Burlington avenue, Monday, 2 p.m.; promotion exercises, No. 729 Beacon street, Tuesday, 9 to 12 o'clock; class play, Elliel Club, Wednesday, 2 p.m.; graduation exercises, First L. P. Church, Thursday evening, with address by Dr. Hugh K. Walker.

**UNCLE SAM GETS  
STUNNING SWAT.**

**WOMAN WILL NEVER HELP THE GOVERNMENT AGAIN.**  
Horrid Federal Officials Refuse to Let Mrs. Thompson Tell Her Story About the Accused Attorney and Now She'll Just Quit—Much Fireworks Enliven Case.  
Considerable fireworks were injected into the statistical monotony of the Federal prosecution of Attorney Fred Thompson yesterday by extremely exorable feminine witnesses.  
One of the angriest women the Federal attaches ever saw was Emma Thompson—no relative of the accused—who had lived near the Thompson home on Vermont avenue. She testified that she tried to sell a house to Thompson in the early part of 1909, for \$400, but he hadn't the money to pay for it. She started to tell the story of the transaction but was cut off by objection, and if there ever was an angry woman, she was one when she called at the office of United States Marshal Youngworth for her attendance fees.  
"It is the last time in my life that I will do a good turn for the United States government," they would not let me tell my story. If it had been for me they would not have known anything about the whereabouts of Thompson when he slipped out. I told them, and it was through me that they were able to trace him. And Thompson afterward bought the house," she declared hotly, "and they would not let me tell about that either. It is the last time I will go out of my way to help the United States. They've been not letting me tell my story; well, that is what I get."  
"Yes, he borrowed \$500 of me and it was blood money; it was blood money, and I never got it back," hysterically shouted Katherine Reynard, an old lady, one of the witnesses at the morning session of court.  
The very idea of not letting me tell my story, well, that is what I get."  
"Yes, he borrowed \$500 of me and it was blood money; it was blood money, and I never got it back," hysterically shouted Katherine Reynard, an old lady, one of the witnesses at the morning session of court.  
The very idea of not letting me tell my story, well, that is what I get."

**COMPLAINTS ISSUED AGAINST SIX  
LIGHT AND POWER COMPANIES FOR  
ABUSE OF CONDUIT.**

New complaints were issued yesterday by Prosecuting Attorney Guy Eddie against J. McMillan, Paul Shepp and A. E. Roome of the Pacific Electric; John B. Miller, R. E. Cunningham and W. A. Brackbridge of the Southern California Edison Company; William G. Kerckhoff, Allan C. Balch and J. R. Hoke of the Pacific Light and Power Company; Howard Huntington and L. G. Leiber of the Los Angeles Railway; and W. B. Cline and Charles Luckenbach of the Los Angeles Gas Company, for failing to put their wires on East Sixth street between Central avenue and Los Angeles street, and on San Pedro street between Aliso and Fifth, in underground conduits.  
The complaints were served upon the officials yesterday afternoon, and arrangements made with them to be in court this morning. This is the second list of complaints issued by Eddie against the above officials for failure to install underground conduits. The first list was thrown out of court by Police Judge Frederickson, because the instruments were issued before the law went into effect. Since then an effort has been made by the officials of the above-named companies to have the wires placed underground.

**LUDWIG-MATTHEWS CO.**

Tel. Main 550 Home A6238 133-135 So. Main Street

**NAUMANN & SCHILL, (Inc.) German Delicatessen**

Genuine Swiss Cheese. "The highest grade." Not the dry, yellow, crushed kind. Imported Brunswiger Cervelat. Pounds, 40c. Imported Swiss Caviar. Pounds, 75c. And hundreds of other imported Delicatessen at both stores.

208 S. SPRING ST. Branch: 224 W. FIFTH ST.

**TOO MUCH JOHNSON.**

Barty Negro Tries to Emulate Champion by Meeting All Corners But is Disillusioned by Police.

Endeavoring to emulate the pugilistic ability of Champion Jack Johnson, a brawny negro named C. A. Johnson ran amuck of some guests in the Hotel Canada, Third and Alameda streets, Thursday night, and attempted to clean out the place.

Patrolmen Rhy and Crow, who were in the vicinity, heard the shouts of Johnson and rushed to the hotel. Johnson had succeeded in raising a mob and was surrounded by a group of men. Several of the mob were hiding under the tables and couches, while others were on the floor. Johnson, who was armed with a knife, threatened to kill the officers. Johnson grasped the hand of the broken chair in his hand, and dared the officers to come and get him.

Crow manipulated a flank move.

## An Ideal Situation

To get value received in return for a disbursement and then have an indirect benefit accrue over and above the ordinary value received—that indeed is an IDEAL SITUATION.

A subscriber to the Home Telephone and Tel. Co. finds himself in just this ideal situation when, after having received the benefits of an adequate, satisfactory and extensive telephone service, he also finds himself as a taxpayer to the city of Los Angeles receiving back from the company special payments and valuable privileges, both of which act as a material factor in paying city expenses, keeping down the possible outlay by the city and so reducing his own taxes. Approximately \$34,000 per annum is the value of this special payment and these privileges, which comprise the payment by the Home Telephone Co. of an additional tax of 2 per cent. on its gross receipts over and above all its other city, county, State and United States taxes, as well as also the FREE use by the city of telephones, cable bears and cross-arms on the Home Telephone Co.'s pole lines.

This obvious fact of this extra \$34,000 benefit per annum is well deserving of thought and consideration on the part of the citizens, subscribers and taxpayers, as they to just this extent profit by patronizing the Home Telephone and Tel. Co. in addition to the telephone service received.

We shall be very glad, indeed, to have you telephone our Contract Department, P88, regarding the installation or extension of Home Phone service in either your place of business or residence.

**Home Telephone & Tel. Co.**  
716 South Olive St.

**BEEMAN & HENDEE**

## The Los Angeles Daily Times

EVERY MORNING IN THE YEAR  
 Daily, Sunday and 24-Page Illustrated Weekly  
 Magazine. Founded Dec. 4, 1881. 10th Year.

BUSINESS OFFICE AND EDITORIAL ROOMS  
 221-223 South Spring Street.

LOS ANGELES (Loco Ahng-hay-lis.)

Entered at the Postoffice as mail matter of Class II.

**Q. UITE A CONTRACT.**  
 A San Francisco judge has announced that he proposes doing all he can to break up the practice of young girls wearing hats, bangs and Grecian bands about their hair. When he succeeds will he please furnish the world with his recipe?

**GARAGE FOR THE POOL.**  
 Mrs. E. H. Harrison will build no great university in California or elsewhere, it is announced. But she could make a hit by building a vast garage in some large city for the free use of the deserving poor who own automobiles. Perhaps she never thought of that.

**THE CLAMBERS.**  
 The coronation of the British King and Queen is certainly offering splendid opportunities for rich American women whose ambition it is to shine in exclusive society. While it is true that Queen Mary is making it pretty hard for our ladies to butt in to any great extent, there is plenty of glory in just hanging around on the fringes.

**WHAT'S IN A NAME?**  
 Shakespeare indicated in one of his famous passages that he really did not consider that there is anything in a name; that a rose by any other name would smell as sweet, etc. Still, we can't help feeling that this Gen. Saint Just who has started out to raise the dickens in Hayti has a name that carries enormous responsibilities.

**PROBLEM SOLVED.**  
 Through all the centuries the effort to care for the deserving poor has been a great problem, but we believe a solution has at last been found, at least as far as Los Angeles is concerned. Whenever money is needed for the charities of this town we need only to send our pretty girls out upon the streets with tags or lead pencils to sell, and there you are.

**JUST LIKE A WOMAN.**  
 When Mildred purchases a parasol she pays mostly for the colors that are arranged to match the dress. Usually it is not large enough to cover more than one side of her big hat. But, at that, it is big enough to dazzle the eye, and a young lady, especially who understands her business may do a lot of things with a well-regulated parasol.

**A FREE FIELD.**  
 President Taft has done the proper thing in ordering the closure of an army officer found guilty of discriminating against a fellow-officer because of his Jewish parentage. There is no room in this country for Jew-baiting or, for that matter, a position of antagonism to anyone on account of birth. Let every man stand on his own hindpaw, no matter what the accident of his parentage.

**THE LORIMER EVIDENCE.**  
 It is announced that Senator Lorimer will testify before the Congressional committee charged with the duty of investigating his election to the Senate. It is not known, however, whether he will tell all he knows of the transaction or confine his testimony to remarks to "how he made friends" when he was driving a street car in Chicago by allowing them to ride without the payment of fare.

**WHITE WINGS.**  
 The proposition to consolidate the South Coast Yacht Club, the Sunset Yacht Club and the Los Angeles Motor Boat Club into one big racing association is to be commended. There is no reason why, under the auspices of the consolidation, that sport of kings, the racing of yachts, should not be carried on successfully. And when everything is arranged, send a challenge to Sir Thomas Lipton, the man who sells the tea, for a race to Honolulu and back?

**THOSE COPPER BELLS.**  
 The finding of three copper bells near Phoenix, where they were lost by some person or persons antedating the present civilization, recalls the famous journey of Fray Marcos de Niza through that territory when he was in search of the Seven Cities of Cibola.

A monument should be erected in honor of Fray Marcos. He was the man who set Mexico on fire by his statement that he had seen with his own eyes the Seven Cities. He was a most distinguished and a highly accomplished liar, and if the other liars of the present day will contribute only a penny each a monument can be erected to Fray Marcos that shall tower to the very skies.

**FOUNDER OF LOS ANGELES.**  
 Los Angeles, busy with growing, hustling to keep up with the commercial demands made upon her, has not yet reached the statue-building stage of her history. But it seems that the time is at hand when we should at least unite in an effort to erect a statue to Don Felipe de Neve, the founder of the pueblo.

Happily, the records of the foundation of our present splendid metropolis are clear. The old Plaza as it now appears was the same Plaza officially laid out by Gov. de Neve, and it was in the center of it that he stood with the padres, soldiers and neophytes when he placed Los Angeles on the map and gave it the name which it still bears.

A heroic statue of this really great administrator of the Spanish King in the Province of California, standing on the spot where the royal proclamation was read which created one of the greatest cities of modern times, would be something to our credit and a recognition of an honor that we owe.

**HER HONOR.**  
 The world watches with straining vision and awaits with bated breath each new move on the checker-board of fate as the same is spread out in the town of Hunnewell, Kan., where the Mayoresa is standing at bay, as it were, defending her lawful authority against the onslaughts of five brutal men who hold office as members of the Town Council.

Each day, or pretty nearly that often, the press dispatches announce the status of the struggle. The latest advices indicate that Her Honore, the Mayoresa, has a shade the better of things. The Attorney-General of Kansas has intimated that he proposes to take sides with the lady.

Whatever the answer was in times gone by to the famous question propounded by William Allen White, this thing in Hunnewell is now what's the matter with Kansas. And it is a grave situation, fraught, as we might say, with portentous possibilities. Perhaps the survival or the disappearance from politics of woman is right now hanging in the balance away yonder amid the sunflowers and the grasshoppers.

If Her Honore, the Mayoresa, wins, her victory will inject new courage into the hosts who are, even now, struggling for the right to vote in California and elsewhere upon many a dusty highway strewn with arguments and brickbats throughout the more or less civilized world. And all the more glorious will be that victory because of this struggle waged by one woman against the combined forces of five men.

**A CANUCK BOOSTER.**  
 The people of "Our Lady of the Snows" or "The Colossus of the North," as the Canadian Dominion is poetically and variously designated, are anxiously awaiting the fate of the reciprocity treaty. They disclaim with British pride the assumption that Canada is in any particular—large or small—inferior to the United States of America.

"In the matter of area," writes a robust Canadian, "Canada is a wonderful country, extending from the latitude of Rome on the south to that of the North Cape in Norway, exceeding the United States in area, with Alaska included. You can deduct that part lying north of the Arctic Circle, and a considerable south of it, and have a farm remaining available for profitable agricultural development with an area of 1,700,000 square miles of territory, a large part of which is already developed, as large as the United States east of the Rocky Mountains."

As to climate, the writer treats with scorn the assumption that "Our Lady of the Snows" needs to doff her bonnet to her southern neighbor. He says:

"With the long prose of sunshine in the summer days, mixed with the warm winds of the Pacific, the limit of growing grain and potatoes and fruit is reached not until we have passed a thousand miles beyond our northern borders in western Canada. Thus nature's God has pressed these great plains to the use and for the use of the human family. Canada can easily support a population of at least 50,000,000 people. This shows us something of what the future of Canada may mean."

Although "in the latitude of Rome," the citrus orchards and banana groves of Canada have not as yet been developed. The writer does not mention the fact that the thermal lines of America, unlike those of Europe, do not follow degrees of latitude exclusively, but are governed also by lines of longitude, and are largely controlled by the situation of oceans, lakes and mountain ranges. The quantity and quality of Canadian grain is extolled as follows:

"Inside of ten years, at the rate they are going on, these three provinces will raise more wheat than the United States does. Wheat the territory and the average necessary and the average to raise a great deal more. Canadian wheat is better grade than American wheat; Canadian barley is better quality than American barley; Canadian oats is better quality than American oats."

Query: Do we want to give up our American wheat to the Canadian grain? And the booster quotes with approval the following statement of a New York farmer with respect to a vegetable dard to every Hibernian stomach:

"In regard to potatoes, New York State is a great potato section, and if the duty is removed on potatoes it will practically drive the farmers of New York State out of potato-growing."

"Because our land has been tillied longer; our land is not in the condition for growing potatoes; we have to use largely of fertilizers to produce successfully, and the Canadian market being so near to our great cities, they will be able to put them on the market as cheap as we can."

Alas for the New York solanum tuberosum. The Canadian reciprocity treaty will consign it to the limbo of things lost on earth.

The booster is willing, nay anxious, to have Canada develop her natural advantages at the expense of Uncle Sam. But The Times does not share his anxiety. It loves our northern neighbors. Thousands of them leave the salubrious climate of the Dominion every year to winter in Los Angeles. But, but, our selfish motto as to Canada is that of Louis the Eleventh: "Honor the church, but give it nothing."

**THE WEATHER MAN.**  
 Evidently the Democrats are already beginning to feel their oats. Six untimely ones are about to undertake a scientific investigation of the United States Weather Bureau. It takes a brave man to attempt the solution of the weather problem in the Eastern States and these venturesome Democrats may find themselves duplicating the task of Sisypheus.

They may reach—if they reach anything at all—the same conclusion as did the Scotch minister in the City of Perth. For five weeks unavailing prayers for fine weather had been offered up in the parish church. On the sixth Sabbath, just as the good man had started his usual supplications, the rain came beating down so fiercely on the roof as to almost drown his voice. Whereupon he closed his book with a bang and roared at the top of his voice, "Good Lord! this is perfectly scandalous." Probably the puzzled weather man in Washington, D. C., when the thermometer seems affected with St. Vitus' dance and the barometer acts like a bucking broncho, feels very much as did the disgraced Scotch minister. We doubt if even six brand-new Democrats can better the weather conditions back East.

But right here we perceive a constant assu-

## A New General in Mexico.

ment for shifting the national capital to the City of the Angels. Here, at least, the Weather Bureau can keep the even tenor of its way with the minimum of effort and the maximum of accuracy. Here those six doughty Democrats might expend their energies on wool instead of wind-tempests. We never have to investigate Mr. Wollaber or to complain that he predicts a fair day with southwest breezes, when rain, snow and hail are served up on the menu, or prophesies six months of uninterrupted straw hats and light flannels when nature has decreed umbrellas and raincoats. His afternoon summer breezes never change into cyclones or tornadoes.

Of course in Washington and New York and Chicago and other cities too numerous to mention the office of the weather man is no bed of roses. If civilization had started from Los Angeles, as a hub, instead of from Boston, comments on the weather, we feel confident in asserting, would never have become the accepted form of salutation all over the world. The constant repetition of "It's a fine day" and "Beautiful weather" would certainly have roused a sense of the ridiculous in average human nature and set the brain at work to devise some more original method of starting a conversation.

Only one novelist—our dear old Mark Twain—was able to write a whole story without any mention of weather. This he did in "The American Claimant," and a corking yarn it was, too, but no other fiction writer has been able to repeat the performance. Boston has been too much for them. But then we must remember that Mark came to California quite early in life and make allowances accordingly.

But, if the Weather Bureau in Washington has become so demoralized as to require a special commission of six Democrats to set it to right, think what awful pangs must visit the breast of the weather man in the ancient city of London, with the tremendous responsibility of coronation day added to his already heavy burdens! For they really do attempt to predict the weather in the British Isles, desperate and forlorn as such a hope must be. Suppose it should rain on that day of gorgeous ceremonies! And yet to suppose anything else calls for as much confidence as that of Billy Boy Bryan to pick the Presidential plum in 1912.

There was a fine philosophy in the breast of the ancient Briton who penned the following classic:

"And first it thundered, and then it blew. And then it frizzed, and then it snow. But whether it's cold, or whether it's hot, You've got to weather it, whether or not."

This is the only safe frame of mind for the spectators who have paid from \$50 a seat up—and mostly up—to view the big street parade in Westminster. But we would not like to be in the shoes of the London weather man if it did rain cats and dogs on coronation day; and he had to receive, afterwards, a deputation from these high-priced seat-holders.

And so Carrie Nation is dead. Well, she made almost as much good newspaper copy as Theodore Roosevelt did.

### YE GODS AND LITTLE FISHES!

Mrs. Annie C. Carpenter of Brooklyn, N. Y., has managed to stir up the famous divorce colony of Reno, Nev., though its blasé members, one would imagine, had long passed the moving-picture stage of emotional excitement. She has done a thing that, in the eyes of her alimony-hungry sisters, almost savors of sacrilege. She has set a precedent which, if universally followed, would shake their belief in that noble institution, the easy and convenient divorce. For divorce, without substantial, cold-cash advantages, would be as dead an idol to the fair worshipers at the Nevada Mecca for the misnamed, as divorce without a flesh-and-blood affinity would be to brave brothers in distress.

To sing before a sentimental audience that heroic measure, "Take back thy gold, for gold can never buy me," is satisfactory

and blood-stirring; to declare the same in cold prose, to a rich suitor with the goods in sight, is a sorry performance in the eyes of the little fishes. Then just imagine how this unorthodox Mrs. Carpenter has started Mr. Mercenary and Mrs. Worldly-Wise! With an amazing, bewildering loftiness of soul she has spurned and rejected—not a lover, for that would be too common to call for a special notice in the dearest Philadelphia newspaper—but nearly three-quarters of a million dollars! You must roll the last six words impressively around your tongue to appreciate the full enormity of her conduct. Three-quarters of a million in cash and jewels and good collateral!

### THE SHAME OF SAN FRANCISCO.

It is stupid of the Mayor to fume and fulminate about the restrictions on libidinous dancing and on the sale of liquor to women in certain districts. It is worse than stupid for him to take the part of the interests that want to establish soldier deadfalls at the Presidio gates. These things and interests are all against the public interest.

Dirty dancing, even under restriction, has grown to be a horrible evil and a shame to the city. The sale of liquor to women in the Mission saloons and "cafes" was and is abhorrent to the very many thousands of respectable people who live in that part of the city. The Presidio groggeries were and measurably they are now a prolific source of crime and a menace to the morale of the army post. In his efforts to enforce the law as to these things, Chief Seymour has done good public service and earned public gratitude.

The "honest workman" of the Mission does not want to take his wife into the back rooms of the Mission saloons. If he did, the wife would not go. The men for whom the Mayor pleads in this regard may or may not be honest, but certainly they are not law-abiding. The women for whom the privilege of boozing in back rooms is sought are not representative of the decent womanhood of the Mission.

As to the filthily suggestive and indecent dances which the Mayor would permit to go unchecked by the police, these are an intolerable evil, and injurious to the morals of the community and to its reputation. They make easy the hideous business of the cadet among young girls. In them there is such wanton display of sex instinct and animalism as to offend the most thoughtful and callous. They make a dance an orgy, a public exhibition of lewdness. Even with these dances forbidden, the "dancing academy" of the day is a sink hole of vice, a recruiting place and a breeding ground of disease. With them, these places are unspeakable evils.

### Are We Deteriorating?

Frank Chance, the great Chicago baseball player, may have to quit the game because of his physical condition, which alarms his friends. During his distinguished career on the diamond Mr. Chance has been hit on the head by pitched balls forty-nine times. The last time was about a month ago, when one side is organized to enter the game and has been losing flesh, and is threatened with nervous prostration.

It has often been said that the race is becoming effeminate, that it is losing those rugged qualities which distinguished the Spartans, and this story seems to lend color to the theory. If a professional ball player can have his head hit by pitched balls fifty or a hundred times, without a demonstration of unmanly weakness, there is something wrong.

If you accept the theories of the fans who attend ball games, the heads of most players are composed of bone or leather, and such heads should be almost indestructible. —Emporia Gazette.

## RECALLING JUDGES.

Danger of the Thing Solely Pointed Out by National Leaders.

From now until the voting day in October next Californians should give earnest thought to the proposition to incorporate a provision for the recall of the judiciary into the State statutes. The Times is not in favor of such adoption for reasons already stated and others which will be discussed in its columns later. In the meantime, it is profitable to note the views entertained and expressed on this subject by leading public men.

Addressing the New York State Legislature at Albany a few days ago, Senator O'Gorman, the Democratic junior Senator of that State, said:

"I am unalterably opposed to the recall of judges. Under such a system it is difficult to conceive of a lawyer of ability and character being willing to accept a judgeship. The new election is practically an impeachment trial, not conducted in an orderly manner before a responsible, deliberate judicial body, where the rights of the official may be safeguarded. It is a trial before the people, who will attempt to pass upon a judge's conduct perhaps in a case where he may have rendered a just but unpopular decision. The popular will will be unfamiliar with the law and the facts involved in the litigation which may provoke the outbreak."

"A more intolerable judicial system cannot be imagined. It is subversive of every principle of a government by laws. Learning, industry and a sense of justice are great attributes of the judicial office, but the greatest qualities in a judge are courage, independence and fearlessness. These qualities would be destroyed under such a system."

"A judge on the bench under this new dispensation before passing on the merits of a case would be looking to the popular decision. In a case of importance he might first have to consider himself and then consider his duty as a judge."

"A worse system has never been devised. Indeed, it may be said that such a provision is absolutely destructive of a stable judicial system and under the American conception of a republican form of government there must be the three separate and independent divisions of government, the executive, the legislative and the judiciary."

Addressing the House of Representatives on May 18 Congressman Howland of Ohio said:

"Mr. Chairman, I lay it down as a fundamental proposition that a judge in the administration of justice must be absolutely independent of the power that creates him. Otherwise, whenever the interest of that power is involved in litigation before that court, you have no judge."

"We create judges and clothe them with power to do what? To pass judgment upon us—each and every one of us—to interpret and to decree the enforcement of the law, which we have made and which we can change at will. If we who create the judge and clothe him with power insist that he is our creature, to decree our will, regardless of the law, we have placed a photograph on the bench, but not a judge. To do this is to attach such subservient and humiliating conditions to the judicial office that no broad-minded, well-respecting man could possibly consent to them."

Congressman McCall of Massachusetts said in the House of Representatives on May 23 last:

"What sort of a judge would you have under that system—a judge who would feel that after any decision, if he might offend powerful interests, if he might offend some great politician, if he might offend some great corporation employing thousands of men, or some great labor union which might hold the balance of power, he would be subject to recall? What sort of a judge would you have under such a system? Why, your judge, instead of going to the sources of the law and to the fountains of jurisprudence before deciding a case, would go out and look at the weather vane. He might be put on trial before he had been called to the bench, and the very men from whose lawless venes he had just rescued a prisoner."

"But you say these things cannot affect a judge. Why, there is nothing in the character of the office, if you make the man's tenancy of it dependent upon the popular favor of the moment, that would change the nature of the man."

Note the convincing words of Congressman Crumpacker of Indiana:

"The application of the recall to the judiciary is a grave menace to the integrity and independence of the courts. I have great respect for the courts and high regard for most of the judges. Occasionally a weak judge may be selected, and occasionally a strong judge may make a mistake in the decision of a question of law or fact. But in the main judges of our courts are able, honest, fearless men. The courts are the bulwark of free institutions; they are the citadel of liberty and justice; and they must always be free to administer law and justice without fear or favor. Under the elective system they should be especially protected against the baleful influence of party politics. The tendency of the recall applied to the judiciary would be to make cowards and sycophants of judges. The equation of public sentiment would enter into or less into the decision of every question of general importance."

Congressman Martin W. Littleton of New York said:

"Suppose the recalled judge is sitting in judgment upon the life of a fellow-citizen. Suppose the passions of the community are at white heat. Is not the judge on trial as well as the prisoner? Instead of holding the scales of justice with even hand and applying the law with fearless disregard of the results, is he not scanning the ugly faces of an angry mob and wondering who will be his accuser in the future? Does he not search the inscrutable faces of the warring factions for the fatal percentage which will arraign him before the country on the recall?"

"Suppose the recalled judge is sitting to determine a controversy between employer and employee. Suppose once more that the passions of the community are at white heat, and the other organized capital. Does he meet the grave, economic and legal questions as the great and dauntless minister of justice? Does he summon to his aid the judicial learning of the ages and invoke the spirit of impassioned justice to guide him? Or does he see the grins of a great representative democracy and enervate its vital forces?"

# Live Wire Scott Takes the Lead

## La Habra Boy Goes To First Place In The Times Greater Contest. He Has Been In The Race Only One Week. Week Closes At Noon Today, and New Week Begins For the Special Prize

Just one week ago today, eighteen-year-old John Scott, Jr., of La Habra entered The Times Greater Contest, and this morning he is in first place with a total score of 43,610, and Burns, who has been leading ever since the beginning, with 41,893. Just about 1700 points separate the two leaders, which is cutting things pretty close, and lends an interest to the race for first place, that bids fair to make things hum from now on.

L. O. Lieber and Mrs. Cole are running neck and neck in third and fourth places, with a bare 800 points separating them; Leo Germain of Los Angeles and Minnie Litchner of Alhambra are almost even in the next two places, and Harry Michle of Riverside is making them go to hold their places. From Alya Sweet with 9498 in eighth place to Lillian Blood with 7389 in sixteenth place, there is just a difference of two annual subscriptions.

The scores are so close from eighth place down to about twenty-fourth place, that one good day's work, securing a few annual subscriptions would put any of the contestants ahead and break them into the 10,000 class or better.

All along the line the increases have been very consistent while a few have shown just how much can be accomplished in a short time by good work.

Today, however, there is go-

ing to be a shake-up. A dozen or more of the live workers have failed to report anything for several days, which simply means that they have got a lot of points up their sleeves to come through with at the last moment to secure this week's prize.

The week will end at noon sharp today. Any out-of-town contestant whose business is mailed before 12 o'clock today will receive the benefit of his credits up to that time.

With the returns not all in, and a good many subscriptions held back until the last moment, it is a difficult matter to guess the winner for the week.

Burns has not reported very much for several days. Mrs. Cole has been playing possum, Barton of Glendale has been doing a nice clean business and saying nothing about it as far as credits are concerned. Minnie Litchner is yet to be heard from, and you will remember what a whirlwind finish she made last week. So the count at noon today is quite likely to develop some surprises, and the grand total to be announced tomorrow morning will doubtless show some very appreciable gains.

At present writing, young Scott seems to be leading the men for the week. He has started with a vim that promises well indeed for his future, and he is in this contest until the last point shall have been counted.

To those who have been thinking about entering this contest, but have not yet done so, the present week's results ought to be convincing to you. The scores as developed during the week show conclusively that one may enter at almost any time and take a front rank by real work intelligently done.

Further than that, at noon today the new week will begin, and prizes of the same amount as this week offered to the male and female contestants who secure the highest scores for the week ending at noon June 17.

This is a liberal offer and an excellent opportunity to secure weekly compensation for the time that you devote to this work.

Somebody is going to get these prizes every week, and now is a good time to make up your mind that that somebody is going to be you.

Then again there are the six prizes for June, \$75 for the first, \$50 for the second, and \$25 for the third prize, each for male and female contestants for the month ending at midnight June 30. See the schedule of these prizes on this page.

Read the Scholarship Announcement On Another Page of This Issue.

### TO CONTESTANTS

Subscription points will be credited daily. Coupons will be credited on Wednesday of each week.

## THE LAR BELIEVED

LOS ANGELES, June 9.—[To the Editor of The Times.] That portion of the local press which is so enthusiastic over the glowing results of the enforcement of the eight-hour law has recently published on the first page of its paper, with conspicuous headlines, a highly distorted statement concerning the alleged violation of the law in the tailoring establishment of Mrs. A. M. Waite. Any one reading the article would very naturally conclude that the woman in question was a hard taskmaster with no regard either for the law or for her employees.

As a matter of fact, the charge was more of a surprise to the girls than to any one else. The supposed representative of the law came to my shop and abruptly demanded to know how I worked my girls and I told them promptly. They summoned one of my operatives—the youngest in the room—and questioned her in a threatening manner. She was so thoroughly frightened that she made one mistake in her replies and it was as a result of that that the trouble came about.

She said that her lunch hour was from 12:30 to 1:00 o'clock, when, as a matter of fact, she was then having her lunch.

The alleged investigators of the case did not give me an opportunity to explain the new system or to make any statement in regard to their methods of investigating. They left, after tearing off my business card from the door.

In the middle of the same afternoon I received a letter from the girls, stating that they had been forced to work during their lunch hour.

I have declined a number of offers to have a test case made of this, chiefly in order to spare the girls; but I consider that this statement of the actual occurrence is due not only to myself, but to them.

MRS. A. M. WAITE.

MADAM BELA AMBROZOVICS.

Niece of Louis Kosuth Making a Sentimental Journey Through the Country.

WASHINGTON, June 5.—Notwithstanding the walls from pulp and fornication that is the age of materialism and that sentiment and idealism have no place in the rush and strain of modern life, the presence of such a woman as the niece of the heroic Kosuth is an eloquent denial to this universal application. This venerable woman now in her 84th year has journeyed to this country, to breathe the free air of the land which afforded comfort and aid to her family during the dark days after the rebellion of Hungary against Austria.

She is in 1849 and to revisit the cities which gave such enthusiastic welcome to Louis Kosuth and his exiled kinpeople. As a girl of tender years, Madam Ambrozovics with her mother who was Susannah Kosuth, was thrown into prison and for some weeks their fate hung in the balance. They were several times in imminent danger of execution but through the efforts of friends, mainly English and American, they were permitted to leave Hungary and to seek refuge in the United States.

They resided here for nearly twenty years, but at last the amnesty permitted all political exiles to return to their native land.

She returned here for nearly twenty years, but at last the amnesty permitted all political exiles to return to their native land.

## J. A. Jepson & Sons Forced By An Increase in Rent to Retire from Business

Every one knows that the expenses of running a big business are heavy. But there is a limit to the expense that any business can stand and still give the people a fair deal. When the demand was made for an increase in rent, we reached that limit. It has always been our policy to give the people the very highest quality of clothing, furnishings, hats, etc., at the lowest possible price. Rather than change our policy and charge more than we think is a fair price for the merchandise, we will sacrifice our present stock and retire from business. See the following reduced prices:

### Suits, Overcoats, Pants

Our \$18 Hand-tailored Suits—Retiring price, \$11.35

Men's High Art Tailored Suits—Formerly sold at \$20. Now, \$17.35

ment anticipates fully 15,000 persons in attendance.

The reopening of Luna Park, closed for some months pending the improvements, will be something in the nature of a musical event. There will be four bands and orchestras on the grounds, chief of which will be Frank Gregory's organization of thirty-five.

Of the twenty-four attractions offered by the Thompson-Snow Amusement Company, first on the list is Thompson's \$75,000 scenic railroad, known as "Nemo's Trip to Slumberland," which is said to be the largest of its kind in the world and which required nearly six months to build.

Then there is Teddy, the orang-utang, whose remarkable human-like attributes were described in detail yesterday. This creature, the first of the kind to be brought to America in two years, has some of the habits of culture.

Many of the "features" are free to the public. For instance, there are Hyder's Monkey Circus to which all parents and guardians accompanied by children are admitted; Mme. Schell's performing troupe, direct from the New York Hippodrome, and Frank Gregory's band; besides an augmented vaudeville in the two-act restaurant.

Other attractions designed for mirth and entertainment are Stanley & Hoxie's Congress of Rough Riders and Wild West Show, Billings' Temple of the House of Hilarity, California Prince, horse with intelligence, the dancing pavilion, in charge of Miss Catherine Page, the battle between the lion and the mermaid, Lotto, a burro and pony track where rides are free to children, vaudeville theaters with weekly changes of bill, outdoor skating rink, and, indeed, all that is acceptable for four hours of enjoyment in the open air.

Friends of Lady Decies (Miss Vivian Gould) who in New York yesterday that she has practically recovered from her operation for appendicitis. She is taking daily drives in London.

NEW LUNA OPEN TONIGHT.

Management of Big Park, Rehabilitation, Expects Throng of Visitors on Its Well Equipped Grounds.

Ablaze with its 50,000 electric lamps, Luna Park will reopen this evening promptly at 6:30 o'clock. Such has been the interest displayed in the big pleasure ground, which has been remodeled and rejuvenated at a cost of \$150,000, that the management anticipates fully 15,000 persons in attendance.
